# REME • HALO®

An RGF Air Purification System

## The Most Trusted Name In IAQ

## Is Your Home Protected?

The main advantage...

REME HALO® does not need the pollutants to travel to the air handler for UV treatment or filtration. REME HALO® is proactive and sends ionized aggressive advanced oxidizers into the room to destroy the pollutants at the source, in the air and on surfaces, before they can reach your family, clients or employees.

REME HALO®

The REME HALO® by RGF® is designed to eliminate sick building syndrome risks by neutralizing odors, particulate, air pollutants, VOCs (chemical odors), smoke, mold bacteria and viruses. The REME HALO® is easily mounted into air conditioning and heating systems air ducts where most sick building problems start. When the HVAC system is in operation the REME HALO® creates an Advanced Oxidation Plasma consisting of: Ionized Hydro-peroxides, Super oxide ions and Hydroxide ions. All are friendly oxidizers. By friendly oxidizers we mean oxidizers that revert back to oxygen and hydrogen after the oxidation of the pollutant.
